House Group Attacks U. S. Revenue Bureau

By The Associated Press

WASHINGTON, March 9—The internal revenue bureau came under sharp fire of the house appropriations committee today. The committee said the political patronage system of picking federal tax collectors should be abolished.

The recommendation was made in a bill providing funds for the treasury and postoffice department for the year starting July 1.

But the committee made only a 1.7 per cent cut in the $2,017,626,200 President Truman had asked for the two departments. It proposed a total of $1,981,722,350 in cash appropriations.

Of this, the treasury would receive $290,453,100, or 5.6 per cent cut, and the postoffice $1,691,269,250, or a 1.1 per cent reduction. The President had asked $306,961,700 for the treasury and $1,710,644,500 for the postoffice department.

Tax Refund Item Absent

Left completely out of the bill was the customary appropriation for tax refunds. The committee decided to put off action on that until pending tax legislation is out of the way.

In addition to the new cash the committee recommended $3,313,584,430 in trust fund appropriations. This boosted the gross total to $11,173,174,863. The trust, general and special funds include such items as interest on the national debt and the old-age insurance fund. Over these, congress has only nominal control.

The committee leveled most of its fire at the internal revenue bureau. It made public its own investigators' reports complaining of inefficiency and citing a case where no action was taken to prosecute an individual alleged to owe $804,000 in taxes and penalties.

"The most serious defect in the organization and operations of the bureau," the committee said "is the fact that the men who are charged with the actual collection of the revenue, the collectors, are political appointees.

"The commissioner, who administers the entire bureau, does not have effective control over the collectors throughout the country.

"Whether collectors of internal revenue actively attend the affairs of their offices or merely bask in their patronage appears to be largely a matter of their own volition."

Advise Civil Service

Collectors ought to be under civil service, the report said.

Indirectly, the committee also criticized President Truman. It recalled that the President last year said a $20,000,000 cut in revenue bureau funds for this year might result in a loss of $400,000,000 in tax money through improper enforcement.

But, the committee added, the President himself cut $5,000,000 from the bureau's budget requests before they reached congress. Using the same arithmetic, the committee said, "The President caused a loss of $100,000,000 in revenues by his own action."

For the coming year the President asked $188,004,500 for the bureau, the same amount it received this year. The committee cut that by $1,265,000 but said the cut should not apply to field forces handling enforcement.

Ohio's Four Bureau Offices Criticized

By The Associated Press

WASHINGTON, Feb. 9—Critical year-old inspection reports on the four internal revenue bureau offices in Ohio were made public today by a house committee.

The studies were made in Cincinnati, Cleveland, Columbus and Toledo.

Findings included:

"Laxity and carelessness" in handling tax collection receipts in Cincinnati.

A high official in the Toledo office with "little or no knowledge" of revenue laws.

An income tax division chief in Columbus with an "indifferent attitude" and poor organizing ability.

An assistant cashier in the Cleveland office with "a stubborn attitude which impedes cooperation."

The studies, dated from Nov. 21, 1946 to Feb. 20, 1947, have been private up to this time. They were made by internal revenue bureau district supervisors. Evaluation comments were made by the bureau's accounts and collection unit.

Similar studies were made in 60 other tax collection districts throughout the country.

HARRY S. TRUMAN

GEN. MacARTHUR

Bidders for presidential nominations.

Says He'd Respond To Call; Truman Hat in Ring.

By The Associated Press

WASHINGTON, March 9—General MacArthur bid openly for top place on the Republican ticket today, even as President Truman foreclosed his mortgage on the Democratic nomination.

The two announcements—only hours apart in Tokyo and Washington—far overshadowed today's New Hampshire primary, the first actual voting for delegates to the national party conventions in Philadelphia.

MacArthur's message saying he is available but will not actively seek the presidency caught professional GOP politicians by surprise.

It put the 68-year-old five star general in the positive candidate class, along with Gov. Thomas E. Dewey of New York, Senator Robert A. Taft of Ohio, Former Gov. Harold E. Stassen of Minnesota and Gov. Earl Warren of California.

The supreme allied commander in Japan named no party in his announcement that he would accept "any public duty to which I might be called by the American people."

But his statement took note of the fact that his name has been entered in the Wisconsin Republican primary next month. Also, only 10 days ago, the general sent a message to GOP headquarters in which he said: "The Republican party has never deviated from the proposition that all political power resides in the people."

MacArthur's Statement

In his announcement last night, MacArthur said:

"I have been informed that petitions have been filed in Madison signed by many of my fellow citizens of Wisconsin, presenting my name to the electorate for consideration at the primary on April 6. I am deeply grateful for this spontaneous display of friendly confidence. No man could fail to be profoundly stirred by such a public movement in this hour of momentous import, national and international, temporal and spiritual.

"While it seems unnecessary for me to repeat that I do not actively seek or covet any office and have no plans for leaving my post in Japan, I can say, and with due humility, that I would be recreant to all my concepts of good citizenship were I to shrink because of the hazards and responsibilities involved from accepting any public duty to which I might be called by the American people."

MacArthur's announcement widened still further an already bulging Republican field.

And Mr. Truman's decision to run drove a new wedge into the Democratic party split over his civil rights program.

His action killed any practical hope of Dixie party members for a compromise candidate.

Can't Withhold Nomination

Politicians generally agreed that now the President has spoken the nomination can not be denied him.

The President's availability was made known by Democratic Chairman J. Howard McGrath.

In the lobby outside Mr. Truman's White House office, McGrath gravely told a ring of reporters:

"The President has authorized me to say that if he is nominated by the national Democratic convention, he will accept and run."

The announcement had none of the drama that marked the late President Roosevelt's statement at a locked-door news conference in 1944 that he would seek a fourth term.

But Mr. Truman's decision to go after his first full four-year term touched off even greater controversy within his own party.

Menaced by Henry Wallace's independent bid for the presidency, that party has shown signs of falling apart at the seams because of southern anger over Mr. Truman's civil rights proposals.

With all of this in mind, Senator Elmer Thomas (D-Okla) told a reporter "there isn't a chance in the world" for Mr. Truman to win in November.

This estimate was regarded as significant because Thomas has not joined in the outcry of his Dixie colleagues against the anti-lynching, anti-poll tax, anti-job discrimination and anti-Jim Crow measures the president has asked congress to pass.

Thomas keeps his finger on the pulse of a border political state —the kind Mr. Truman must carry if he wins a close race over his unnamed Republican opponent.

The Oklahoman said he is for a ticket made up of Gen. Dwight D. Eisenhower and James A. Farley. Both, however, have said they won't run.

Asked whether Mr. Truman

Believe Court Ruling Affects Bible Teaching in City Schools

A news story on the supreme court ruling in the religious education case appears on Page 3.

It appeared probable here today that the U. S. supreme court decision Monday against weekday church classes in public schools will affect at least 2,000 Marion school children as well as 73,517 Ohio school pupils.

Dr. B. F. Lamb, executive secretary of the Ohio Council of Churches which sponsors religious classes in 68 school systems, said in regard to the court decision, as reported by The Associated Press from Columbus today: "While church and state should be separate and distinctly so, churches and schools must cooperate in development of children in good citizenship."

The decision of the supreme court at Washington, D. C., in which eight justices agreed, came as a result of the original lawsuit brought some time ago at Champaign, Ill., against the city school board there by a self-styled Atheist mother whose complaint was that religious education classes held in the Champaign schools violate the nation's constitutional requirement for separation of church and state.

Offering Taken Here

About a year ago an offering was taken by the Marion County Council of Churches here to help pay costs of employing lawyers for defense of the Champaign, Ill., city school board, in the court proceedings, J. W. Baker, chairman of the weekday religious education committee of the local Council of Churches, stated.

"While it may be generally adverse to our cause," Dr. Lamb said of the ruling, "its meaning is not clear. Any judgment to be made must be dependent upon further interpretation. Some programs may require little or no change."

Fred Mourey, state secretary of the Junior Order United American Mechanics lodge, declared the decision was a "clear-cut reiteration of the American principle that complete separation of religions and government should be maintained," The Associated Press said.

As Marion's weekday religious education classes are set up, one class period a week in each grade, third through sixth, at each public school building, is given over to the religious instruction. Two teachers of religious education are employed here by the Marion Council of Churches, interdenominational organization, to carry on the week-day religious program in the school. The instructors are Miss Lydia Ebel, supervising teacher, and Mrs. Ivan L. Willauer.

It was pointed out by Mr. Baker that the classes are not compulsory, and that instruction is entirely non-sectarian in character. The decision of the supreme court justices was that "religious sects may not use America's public schools to teach their beliefs."

Children are not enrolled in the classes here without consent of the parents, it was further pointed out. The classes in religious education in the public schools here were inaugurated five years ago.

City Granted Airport Funds

$80,000 Included in Million Dollar Appropriation for Ohio Projects.

An additional $80,000 may be granted Marion by the federal government for airport construction, according to an announcement made today in Washington by the Civil Aeronautics Authority.

An Associated Press dispatch listed more than $1,000,000 for airport improvement and construction announced by the CAA for Ohio. The funds are included in a commerce department appropriations bill passed by the house last week, the CAA said. If senate approval is forthcoming, the funds will be available by June 30.

Marion already has a federal grant offer of $246,500 approved by the CAA for construction of the new municipal airport.

District Engineer for the CAA, E. H. Schofield, Columbus, contacted today for amplification of the CAA announcement from Washington, said he was inclined to believe that the $80,000 represented an additional appropriation for the Marion project.

Under the construction program, Marion has sought matching funds for the new airport.

An appropriation of $80,000 by the federal government would bring the total earmarked for local use to $328,500. The city has for construction purposes $322,000 of the original $400,000 city bond issue, the remainder having been used for acquiring the airport site and engineering work in which the government does not participate on a matching basis.

Mayor Harry L. Dowler said today he had not yet received an announcement from the CAA concerning any pending appropriations for the new airport.

Finn Delegation For Moscow Talks Is Leftist-Tinged

By The Associated Press

HELSINKI, March 9—Finland picked a leftist-tinged delegation today for the Moscow talks on a Russian Finnish treaty of friendship and mutual assistance, a government member said.

Government quarters said they expected the negotiations to begin on or about March 20. The seven-man Finnish delegation will be headed by Premier Mauno Pekkala. There was no indication whether special technical advisers on military matters will be attached to the group.

The majority of Finland's political parties have expressed opposition to a military alliance with Russia. Of the seven delegates, three represent parliamentary groups which have gone on record against an arms pact.

The Finnish cabinet session decided upon the makeup of the delegation at a meeting this afternoon. Finland's foreign minister, Carl J. A. Enckell, a non-party man, is vice chairman of the delegation. He speaks Russian and has been a member of practically all recent Finnish delegamunists in Finland's "Democratic Union."

Premier Pekkala is a member of the Socialist Union party, which is affiliated with the Communists in Finland's Democratic Union.'

The Russians suggested a friendship and military pact. A majority of the Finnish political parties approved negotiations but disapproved the idea of a military alliance.

CLAIMS TAFT LEADS RACE

Campaign Manager Says Ohio Senator Made Great Strides Last Month.

By The Associated Press

COLUMBUS, O., March 9—Sen. Robert A. Taft now has more delegates than any other candidate for the Republican presidential nomination his campaign manager claims.

"He made tremendous strides in the last month," U. S. Rep. Clarence J. Brown of Blanchester said here last night. "If he keeps gaining as he has, he will be nominated."

Brown outlined Taft's strength for reporters following a lengthy strategy meeting with Ohio GOP leaders. The state Republican organization has endorsed Taft as its favorite son candidate.

Needs 548

Taft, who needs 548 delegates to win at the GOP convention in June, currently has more than 300 delegates, with some surveys giving him as many as 400, Brown said.

Brown was enthusiastic over the senator's chances of carrying the two states in which he is entered in primary contests—Ohio and Nebraska. Harold Stassen, former Minnesota governor, is challenging Taft for 23 of Ohio's 53 convention votes.

Taft's chances in Nebraska are "very bright," Brown said. Voters there ballot April 15. All GOP hopefuls will be listed on that state's ballot.

As for Ohio, the Taft forces predicted an easy victory. Taft himself told newsmen yesterday he expects "to carry Ohio—all the delegates there are."

Brown agreed, adding:

"At the worst (for Sen. Taft), Stassen won't get enough to mean anything."

Minnesota Word Good

Brown also said the word from Minnesota—Stassen's home state —which Taft recently visited, "is very, very good."

There will be Taft-Stassen battles in 11 Ohio districts, plus one delegate-at-large race. State GOP Chairman Fred H. Johnson was selected yesterday to supervise the Ohio campaign, working under Brown.

At the general conference yesterday the GOP leaders laid plans for an all-out fight to win every one of the state's delegates for Taft. They want to make the victory over Stassen so big Taft's opponents, who argued the Ohioan would make a weak presidential candidate, will be left without a valid contention.

MAIL REWARD CHECK FOR YOUNG ARREST

Official Sends $1,000 to Sheriff John Hodson in Colorado.

Another chapter in the story of Edwin D. Young sentenced to life in Ohio penitentiary last week for the murder of Mrs. Zora Gerbes was closed today when Sheriff LeRoy Retterer mailed a reward check of $1,000 to John Hodson, sheriff of Prowers county, Colorado.

Sheriff Retterer dropped the letter containing the check in the mail shortly after noon today. The letter contained recommendation as to how the money should be apportioned.

Sheriff Hodson identified Young several days after his arrest in Holly, Colo., on another charge. However, a Prowers county constable, Ben H. Williams, actually made the arrest of Young not knowing at the time the man's true identity.

Williams also filed a claim for the reward. His claim was followed shortly by an affidavit from Hodson. With two claimants to be considered in deciding to whom the reward should go, recommendations were sought from Lee Kellis, stepfather of Mrs. Gerbes, who had put up a major part of the money and others contributing to the fund.

The letter accompanying the check states the reward is being paid Hodson as the person legally entitled to receive it but recommends that he pay what he thinks proper to Williams for his part in the capture. How much Williams is to get is left up to Hodson.

The letter is signed by the sheriff and bears attesting signatures of Prosecutor James E. Reed and Carter Patton attorney for the Kellis' and custodian of the publicly raised fund. The sheriff and prosecutor originated the reward fund with donations of $100 each, the rest being later put up by public donations and the Kellis family.

Monday Is Deadline For 1947 Income Tax

Marionites who have not filed their income tax returns for 1947 have only four more days to account to Uncle Sam for their earnings for the year.

Deadline is 5 p. m. Monday, March 15, and to date there has been no authorization of remaining open later on the last day John Sells, deputy collector, said today. The office also will not be open on Saturday, he announces. Hours each day through Friday are from 8 a. m. to 5 p. m., and the same hours will prevail next Monday.

No last minute rush is anticipated by the local office as there has been a steady line maintained each day since the office opened, those in charge report.

Toledo Woman Speaks At Last Session of Sales Institute

Mrs. Margaret Dwyer, area coordinator of distributive education for Toledo's public schools, spoke at the sixth and final session of the Institute of Retail Training held last night in Central Junior High school auditorium.

An estimated 330 Marion merchandisers attended to hear Mrs. Dwyer's address "What Personality Means in Business".

"There is a rumor going around that anybody can sell," Mrs. Dwyer said." it is a supposedly easy job. That may have been true during the war but the situation is different today.

"First of all to sell you must know the ordinary skills and techniques of selling. These fall into seven general classifications: Knowing your store's system and policies, knowing your merchandise, knowing fashion, using a positive selling approach, knowing the method of closing a sale, knowing how to do telephone selling, knowing how to build a clientele," the speaker advised.

"Personality is the most important requirement in a sales person. Selling is more than wrapping up merchandise and giving correct change. Sell yourself, too, and send out a satisfied customer who will return because she remembers you and likes the way you treated her.

"A neat well-groomed appearance in a salesperson is not quite enough. You need first a vibrant alive look. Be alert and interesting and have a smiling interest in your customer and show that interest. Give your customer the impression that you are so interested in her desires that you will do anything in your power to find the merchandise she is looking for.

Cooperation Stressed

"Be cooperative. Understand your boss, and the other [illegible] people you work with, and [illegible] your best to [illegible] customer. Develop a graciousness in little niceties that seem to be forgotten today. Customers are not so eager to part with their money as they once were. Be patient, show the customer your interest, and be helpful and you will have a steady customer in the future because that customer knows of your interest in serving her and your desire to please.

"Don't be excitable, be calm and collected and your calm will be reflected in your customer in her dealing with you.

"You must have brains, initiative, dependability, promptness, loyalty, memory, cheerfulness, and a sense of humor.

"To build a clientele you must first remember names, the names of your customers, and remember to please them when merchandise they spend arrives in your store. Even though you have a customer you cannot be lax in your attitude, if you should lose that customer [illegible] [illegible] [illegible]

DAILY LENTEN MEDITATION

CHRIST in You, THE HOPE of Glory

* * *

"NOT MY WILL, BUT THINE, BE DONE"

Luke 22:41, 42. "And he was withdrawn from them about a stone's cast, and kneeled down, and prayed, saying—Father, if thou be willing, remove this cup from me: nevertheless not my will, but thine, be done".

CHILDREN often think that their parents are mean and unkind to them because they do not always let them have their own way. What an unpleasant place this world would be if everyone did only the things that he thought he wanted to do. Of course if we demanded our own way it would only be fair to let everyone else have his own way too.

Christian boys and girls, as well as Christian men and women, do want to choose those things that are best. They have learned a great lesson from the Lord Jesus, Who was willing even to suffer as He did, if it were the Father's will. So, when we pray, let us be content to let our heavenly Father decide if what we ask is really best for us. Let us pray in the spirit of Jesus—"Not my will, but thine be done".

Salem Evangelical and Reformed Church.

Roving Reports

NEW YORK — SNARING a rich husband is a highly developed art in New York, and smart mothers now are hiring press agents to get their debutante daughters married.

Here is the way it works:

Mrs. Maggie Nobody is a social climbing widow of middle age. She has a little money, a daughter and more brass than a shell factory.

The only object Mrs. Nobody has in life is to muscle her way into what passes for society here—it is sometimes called "chaos with class"—and marry off her empty - headed kid into a family with big dough.

Hal Boyle

Some time back Mrs. Nobody forked out a considerable number of dollars to an impoverished lady of quality with lots of social entree but little cash. This hardup peddler in lavender and old lace saw that little Gladys Nobody went to the right schools and met the right people.

She also superintended the coming out party at which Gladys was formally introduced to society. About half the social register guests who were invited showed up. They didn't care much for Mrs. Nobody but after all their kids had all gone to the same school and anyway the champagne was free.

GLADYS LOOKS LIKE 12 miles of broken road before she puts her makeup on. But she's been taught how to wear expensive clothes and talks a smart hard patter.

Every one in their circle knows that Mrs. Nobody has now put Gladys on the matrimonial market and is looking for a sucker. But that doesn't change the game any.

Dipping again into her slender resources, Mrs. Nobody hires a press agent to advertise her product. He may line up Gladys a job as a society model — as everybody knows the rich young boys like to date glamorous models.

He also will see to it that Gladys is mentioned frequently in the society news and that she goes to the fashionable places. Any lad who takes Mrs. Nobody's filly out for the evening had better count on spending at least $50. She doesn't think it's cute to go to those funny out-of-the-way spots where people drink beer.

LIKE ALL DEBUTANTES Gladys is eager to lend her glamor to charity events. But the first question she asks is, "Will the photographers be there?" If no cameras are coming, she's just too busy to be bothered.

Mama Nobody does her bit to keep her daughter before the public, too. She has an arrangement with a gossip columnist whereby she relays bits of social scandal to him and in return he mentions Gladys in the paper—favorably of course.

How will it all end? The field is cluttered with brittle dowryless daughters being pushed by conspiring mothers. The chances are that Gladys will marry some equally brittle young man who lives on his plospects rather than by his sweat.

When Gladys discovers her Prince Charming is a glossy pauper and the young man discovers that Mrs. Nobody's kitty is about empty, they will probably quarrel and nag their way into the divorce courts.

ONLY RARELY do these society fringer debutantes strike a gold mine. But one some time ago did manage to grab off a young foreign aristocrat who was deluded into thinking he was marrying into a socially prominent American tribe. This victime of the debutante racket glitter has a mother who doesn't like her boy to be without pocket money. So she gives him $40,000 a month.

It is prizes like this that keep the Mrs. Nobodys in the game. But generally all their spoiled daughters win is—a prize booby.

In Plain Words — By James Marlow

WASHINGTON

THE Republican race for president starts today in a presidential primary election in New Hampshire.

This story, but only in a general way, explains what such a primary means. Start this way:

In June Republican delegates from every state—at a national convention in Philadelphia—choose their candidate for president.

In each state the delegates to the convention have to be chosen, but not the same way in every state.

Some are selected by Republican conventions; others in state primary elections, like New Hampshire's.

James Marlow

But even these primaries differ from state to state. For example:

In one state Republicans will vote for delegates who may, or may not, be pledged to support some one man for the nomination at Philadelphia.

In another state the Republicans cast a double vote at the primary:

1. They express a preference for some top Republican they'd like to see nominated.

2. At the same time they elect delegates who may be pledged to one man; or may not be; or who may not even have to follow at Philadelphia the preferential vote of the Republicans of their state.

In another state primary the voters just express a preference for a Republican candidate and don't choose delegates. In that case the delegates are chosen at a state convention.

"THOSE STATE conventions also vary in choosing delegates. They may, or may not, instruct them to support one certain candidate at Philadelphia."

There will be 1,094 delegates from every state at the Philadelphia convention. Of that number, less than half will be elected at state primaries, like the one in New Hampshire today. The others will be picked at state conventions.

At least 13 states besides New Hampshire will hold Republican primaries before the Philadelphia convention. Two more may. The rest will select delegates at state conventions.

The top Republicans either openly hoping for the nomination or publicly willing to accept it are: Governor Dewey of New York, Governor Warren of California, former Governor Stassen of Minnesota, Senator Taft of Ohio, General Douglas MacArthur.

SOME OF THEM, directly or through friends, are trying to line up state delegations to support them at Philadelphia. Dewey and Stassen, for example:

So the state primaries sometimes show how the political wind flows. Take New Hampshire:

Stassen has gone in there and campaigned. Dewey hasn't but his supporters have been working for him.

In that state—where would-be delegates can seek election as pledged or unpledged to any one man—this has happened:

There's a slate pledged to Dewey and another to Stassen. And two would-be delegates are pledged to General Eisenhower who says he doesn't want the nomination. New Hampshire elects only eight delegates.

If either Dewey or Stassen makes a good showing there, through the election of his pledged delegates, it may have a good effect for him in the other 13 primaries coming up.

In 1944 Wendell Willkie dropped out of the Republican race after the poor showing he made in the Wisconsin primary. He campaigned in Wisconsin. But not one Willkie-pledged delegate was elected.

THE MORE SUPPORT one of the presidential hopefuls gets in the state primaries, the more delegates he'll have on his side when the Philadelphia convention opens.

But they're not depending on the primaries alone. They'll work, too, to get the backing of the state conventions which choose delegates.

The delegate-choosing methods outlined for the Republicans here, runs pretty much the same for the Democrats. In their case there's no big race—yet.

No Democrat, except Governor Jim Folsom of Alabama, has said he'll run against President Truman. Mr. Truman said yesterday he'd accept the Democratic nomination if it's given him.

The Democrats hold their nominating convention in Philadelphia, too, but in July.

Your Good Health

A Drug That Helps Motion Sickness

It used to be thought that motion sickness was largely confined to a very few over-sensitive individuals but, with the development of new forms of high speed transportation, doctors are finding more and more people affected by this traveler's ailment.

There are various types of motion sickness, such as seasickness, air sickness, and train or car sickness. It would seem likely that all of these conditions are due to the same cause, although the exact reason for their development has not been definitely determined.

Connected with the ear are little structures known as the semi-circular canals. These structures contain fluid, and the movement of the fluid in these canals has to do with the maintenance of balance. It is thought that disturbances of these structures may be a factor in the development of motion motion sickness.

Many drugs have been tried for the relief of this condition. During the war, this disorder was studied extensively, and many preparations were tried on soldiers and sailors, as well as on men in the air corps.

It was found by many experimenters that a drug known as scopolamine caused a greater reduction in seasickness than any other preparation tried.

When larger doses of the preparation were employed, some dryness of the mouth developed, but the discomfort produced by this dryness was of little importance when compared with the severity of the seasickness.

In the air corps, scopolamine also proved successful in preventing air sickness. Reactions to the drug were slight and did not interfere in any way with the performance of the men's duties.

The exact way in which the drug acts is not fully known, but it seems to have a sedative or quieting effect on the nervous system and also prevents excessive movements of the stomach and bowel. Of course a preparation of this type should be employed only under the direction of a physician. He will decide just what preparation should be used and the dose to be administered.

Those who are contemplating air trips or a long boat voyage should consult their physicians prior to the journey concerning this form of treatment.

QUESTIONS AND ANSWERS

H. S.: What causes shingles?

Answer: Shingles or herpes zoster is an inflammation of the skin in which there are groups of blisters distributed along the course of one or more of the nerves in the skin. The cause in the greatest number of cases is probably an infection by a virus. The condition occurs most frequently during cold, damp weather, in people whose resistance has been lowered by overwork or disease.

Love's Perilous Path

By ADELE GARRISON

THE face of Jim, our ordinarily stolid farm superintendent, was working with an emotion I could not interpret as I finished my appeal to him. But when he finally broke into speech I realized that it was gratitude which was triumphing over his anger at Katie, because of the trouble she had caused me.

"You're too good to everybody, Mis' Graham," he said. "Of course, I'll do as you say, as long as Katie is back at her work. And I'll give her the message about the ten minutes more before she rings the gong. And I won't say nuthin' more to her about this mess. But, so help me if she ever pulls anything like this on you again—I don't care what she does to me—I'll give her something to remember. I hain't never lifted a hand to her, except to slap her and throw cold water on her when she had hysterics — the doctor says you have to do that to bring her out of them—but she'll know I've got a heavy hand if she ever pulls anything like this on you again."

There was such resolution, tempered with his natural reluctance to use force in anything—he rarely touches a horse with a whip, for instance—in his face that I had hard work to keep back a smile at the mental image of Jim attempting to administer corporal punishment to Katie. What my faithful, but tempestuous housekeeper would be doing during the process was something to visualize.

"I think she'll be good for a long, long time now," I said, rising, and holding out my hand to him as he awkwardly got up from his chair. "Le's shake hands on that hope, Jim, and be sure that you don't let Katie suspect that you and I have said anything about her. I said in the kitchen that I wanted to find you, and they directed me to my father's wing. When you see them, tell them I told you to see that fires were kept going in my father's wing, and down in the secret basement room. Also, give Katie my message about the dinner time. But, even if she asks you, I want you to stretch your conscience, and tell her we didn't say anything about her behavior. You might say that you tried to apologize for her, but that I told you to forget it, that she was back at her work again."

"Yes, that'll be better," he said heavily. "Katie's awful sharp, and she'd know I was lyin' if I told her I didn't say nuthin' to you about the way she was actin'. But what you said will satisfy her."

He took my hand and gripped it hard. Then he let it drop awkwardly.

"I suppose you're in a hurry to get to your father's wing," he said. "And I'll see to the fires. You do want them built, don't you?"

"Oh yes, of course," I said, moving toward the door with him. "Good-by, till I see you again."

"Good-by," he answered, lifting his hand in something like an army salute. For some reason the gesture brought a lump in my throat, and, as I hurried down the corridor toward my father's wing, I reflected that loyalty and devotion such as Jim's, are fast-vanishing qualities in this strange new world.

My knock upon the door of my father's wing brought quick response. Mr. "K." threw the door open and, at the same instant, Georges rose from his chair at the far end of the room, and rushed toward me.

"Oh!" he said." You have come to grant me the private interview I so wish?"

But Mr. "K," who, I think, with our own "men folk," delight in thwarting the royal playboy, cleverly interposed his body so that without climbing over him, Georges could not reach me.

"Gently, Georges, gently!" the FBI man advised in dulcet accents. "We must not hurry the lady. She may have some instructions she wishes to leave with us before taking up your request for an audience."

"Time Is of the Essence"

REPRESENTATIVE MARTIN, speaker of the house, has told Secretary of State Marshall the European recovery program should clear his branch of congress by April 10 or soon after. The legislative timetable has become more important as events in Europe made it plain that the Soviet Union does not intend to wait for the United States to move first. As Secretary Marshall said recently, "Time is of the essence." It soon will have been a year since he made the speech that grew up to be the Mar hall plan.

Time's importance may be demonstrated April 18, when Italian communists hope to repeat the Czechoslovakia coup by making a successful show of strength at the polls. If they take over Italy, afar from Russian border, the question no longer will be how to keep Russia out of western Europe but how to deal with Russia already entrenched in western Europe. Italy is one of the 16 nations to be helped by the United States if the European recovery program is adopted. So is Greece, where Russian support has been given to a civil war. So is Sweden, which can expect to feel increasing Russian pressure as soon as Finland has been bent to the Kremlin's will.

The chaplains of the senate and house might add to the prayers with which they open each day's session the much-quoted line from Shakespeare—"If it were done when 'tis done, then 'twere well it were done quickly."

One Thin Ray of Hope

FROM whatever angle viewed, the Palestine picture is dismal. But an outside chance for peace is seen in the possibility of a merger of Arabian Palestine and adjacent Trans-Jordania.

Such a union would give the Arabs a 3-to-1 majority over the Jews, in addition to which the Arabs probably would demand a Swiss-type federation of greater Palestine. Such a plan would require important concessions from the Jews, and also the consent of the Grand Mufti and the Arab higher committee.

As other proposals prove unsatisfactory, Trans-Jordania looms larger as a possible key to the Palestine impasse. King Abdullah of Trans-Jordania is the spokesman for Arab moderates. His army, commanded by the famous Glubb Pasha, is highly rated. Provided he can win the assent of Arab league leaders, he would be happy to assume responsibility for the Arab sector of a greater Palestine.

As the days of the British mandate grow shorter, the possibilities of a settlement based on these factors are being thoroughly explored.

Suggestion for a "Week"

FOLLOWING the coup in Czechoslovakia, the Communist bullyboys decreed something called Gottwald week "to give the people a chance to rejoice."

America has apple week, large size week, eat more wiener schnitzel week and possibly, since the last list was compiled, don't shove when getting on elevators week. It is unfortunate that it doesn't also have a raspberry week so that proper recognition might be made of the bombast and florid prose emanating from Prague.

Conservation Progress

EVIDENCE that we as a nation are becoming aware of the need for soil conservation is found in the annual report of Hugh H. Bennett, chief of the soil conservation service.

Since 1935 more than 1,900 conservation districts have been established and in 1946 experiment station field men surveyed 31,747,421 acres. Such surveys provide farmers with instructions on how their land may best be utilized and how to prevent erosion.

Soil surveys provide farmers with instructions on how their land may best be utilized and how to prevent erosion.

Soil conservation is an urgent problem throughout the world, and only a beginning has been made. The world has about 4,000,000,000 rable acres, much of limited productive capacity.

Improved breeds are varieties of hybrid seed, insect and disease control, modern marketing methods, improved machinery and scientific discoveries—all are of temporary value to the farmer who is misusing his soil. As the world's population continues to grow, conservation must be the leading factor in raising farm productivity to new highs.

Be Rough on Rats

THE first step in the interior department's rough-on-rats program is a request to mayors of the 1,077 American cities of more than 10,000 population to appoint rodent-control committees. The campaign will have to extend beyond cities, however, for it is in granaries, silos and fields that rats cause tremendous damage.

Rodent extermination is a subject that will grow in importance as the damage they cause is fully publicized. Grain lost in a year would be sufficient to keep Europe well supplied. The day will come when a mouse or a rat will be no more tolerated than a bedbug.

There are evidences that beer was brewed by the Egyptians of the Fourth Dynasty, some 3,000 years before the Christian era.

Scanning the Record

By George E. Sokolsky

Liberal Use of the Word "Collapse."

E. T. WEIR, the steel manufacturer, raised the question in his deposition before a congressional committee.

". . . I must confess frankly that I do not know what is meant when a nation is described as being in danger of 'collapse.' Nations just don't collapse. Throughout history, nations have for various reasons been in very poor condition and they have usually recovered. If European peoples had nothing left except natural resources, their bare hands, and the spirit to work they would rebuild. That is a law of life. Obviously, the nations of Europe will recover quicker and with less hardship if they receive proper outside aid and use it wisely . . ." Precisely what is meant by "collapse?" Obviously, Great Britain has not collapsed. Instead, the British have embarked upon a vast experiment in socialism which they hope the United States will, in a measure, underwrite. All that such underwriting can do is to lessen the austerity of life, but the British have no intention of lessening socialism, no matter what the United States does about it.

SOKOLSKY

Yet socialism is a costly experiment and certainly no nation in a state of collapse could undertake it. The British would perhaps say that they have no alternatives. Actually, they have several alternatives not the least of which is the continuance of British financial and commercial practices that built them into a great empire.

Some Comparisons

Certainly, France, Holland, Belgium and Switzerland are not in a state of collapse. Holland, Belgium and Switzerland are doing remarkably well, and France is making a noticeable recovery. Many judges of such situations feel that France has done better than Great Britain under infinitely more difficult circumstances. For the Communists nearly had France in the aftermath of the war.

E. T. Weir spent last summer in Europe, as did a large number of members of congress. To most of them, the term "collapse" is both fallacious and insulting. True, all these countries are in difficulties, but if the situation is completely analyzed, so is the United States, which has to burden itself with an annual budget of approximately $40,000,000,000. The entire world is in confusion which is inevitable after a general war.

Weir makes another point in his testimony before congress that brings the entire issue to a head:

". . . It should likewise be recognized that the thing of greatest importance to the western world today is the continuing strength and stability of the United States. We have no surplus above our domestic needs in the goods requested by Europe. Steel, oil, coal, machinery, freight cars, for example, are all in short supply and are all badly needed to restore balance in our own economy. It is simply not fair for the salesmen of the proposed program to say, as they have, that it will take less than 5 per cent of our gross product. That may be true mathematically, but the fact is that the 5 per cent will have to come out of the places where it will hurt—and hurt badly."

No "Collapse" Likely

The real trouble with the salesmen for the Marshall plan is that they have so little confidence in and respect for the American people that they will not tell them the truth. They raise side issues which are readily disproved. The truth is that the Marshall plan will not save Europe from "collapse" nor will Europe "collapse" if the Marshall plan does not go through congress or is sharply modified. In any event, most nations will find a way to re-establish themselves.

The state department and the votaries of the Marshall plan advocate this device to form an anti-Russian union in the world. That is either desirable or undesirable, good or bad, worth the price or not worth it on a basis of fact and from the standpoint of one's point of view. And that is the proposition that needs to be discussed. Senator Ball brought that out clearly and hit the nail on the head, apparently to the annoyance of Senator Vandenberg. But that is the proposition and that is it without diplomatic refinements.

The question is, can we buy such a union? If we can, for how much and how long? And is it worth the price asked?

Just a Minute

By Jack Tarver

Unpremeditated and Understandable

A New Yorker recently shot a woman tavern patron who played "Bongo, Bongo, Bongo, I Don't Want To Leave The Congo" 25 times on the juke box.

That will probably go down in legal history as the first justifiable homicide.

At worst he'll get a suspended sentence and a resolution of commendation from the National Association of Music Lovers.

"Bongo, Bongo, Bongo" is not, as many naturally supposed, Petrillo's answer to the Messers. Taft and Hartley.

It was written by a reformed composer of singing commercials in a diabolical effort wreak revenge on radio.

He combined the worst features of boogie, bedlam and barrelhouse and then, in a moment of mad genius, satirically labeled it "Civilization." It is now on more people's nerves than anything since nicotine.

Personally, I have a haunting nostalgia for the good old days of sensible songs . . . such as "Jada, Jada, Jing, Jing, Jing."

Crucial Choice for GOP

By Walter Lippmann

THE argument of the previous articles was that while the Truman administration might become so weak that even Taft could win, the Republican party cannot become firmly united for an effective administration of the government except by organizing around Dewey and Vandenberg.

They represent the postwar position. Under Taft, who represents the prewar position, the party would remain fundamentally disunited. It would be an uneasy coalition of disagreeing elements, unable to move confidently on any definite line of policy.

LIPPMANN

The preliminary polls confirm what is common knowledge—that Gov. Dewey does not attract general and spontaneous support. The Eisenhower, Stassen, and Vandenberg booms indicate that though Gov. Dewey has all the objective specifications for the nomination—a proven record as a vote-getter in New York and as an extraordinarily successful governor, together with an acceptable position on domestic and foreign issues—a very large number of people are looking for something in the president which they feel that he lacks.

Perhaps it is a certain generosity of the spirit, which is to be found in Eisenhower, Stassen and Vandenberg.

The missing quality in Dewey is imponderable. But if this quality were not missing, his nomination would be a foregone conclusion.

There is no doubt that Vandenberg is now the man on whom the active candidates could most readily come together. Of no other man can it be said that there are so many Republicans who trust him, so few who are deeply opposed to him.

His choice would, however, present a special problem which, considering what is at stake in the next four years, needs to be faced calmly and frankly. Senator Vandenberg would be nearly 65 when he was inaugurated, and although his health is good, it is not so perfect but that it has to be taken into account.

The Strain Is Different

What has to be taken into account particularly is the fact that executive office would be a new experience for Senator Vandenberg. Now the strain and stresses of the executive are quite different from those of the legislator, and in his case there is no way of telling how readily he would accommodate himself to them. It must be assumed that the strains of stresses would be far greater for a man who takes executive office late in life than for a man used to them all his life.

The senator has, I think, recognized something of the sort. Not long ago he told Marquis Childs that he would wish to be a one-term president if he were nominated and elected.

The nomination of Mr. Vandenberg would, therefore, make the choice of his running mate for vice president a matter of the highest importance. The question of his successor would be posed from the outset, and it could not again be overlooked as it was in 1944. We need consider no other eventuality except the one which Mr. Vandenberg put to Mr. Childs—that he would not wish to serve more than one term.

Choice of Successor

The fact that he was not a candidate for re-election would, of course, give him some of the advantages which he spoke of to Mr. Childs—"his appeal to the country would be stronger since it would be evident that continuing in power was not his chief objective," not his personal objective. It would, however, be the objective of his party. And so during his one term the politics of choosing his successor would be ever present, and would affect profoundly his own capacity to lead and discipline his party.

Therefore, it seems to me, the choice of the vice president on a Vandenberg ticket is a crucial consideration. It is crucially important not only in the event of his disability but because, unless the succession is settled at the outset, the problem of the succession would dominate his administration.

If the vice president were not a man qualified to be president in his own right—say a Dewey or a Stassen—and at the same time as fully committed, as they are, to following the line of policy on which Vandenberg would be elected, the Republicans in 1948 would run the risk of repeating the mistake which the Democrats made in 1944. The country would have no assurance of having the kind of administration it thought it was electing.

The State of Mr. Truman

By Joseph and Stewart Alsop

WASHINGTON

THE miseries of Harry S. Truman are becoming so numerous that it is almost inhuman to report them. Nonetheless, it is an inevitably significant political fact that the President has more misery in store for him when the greatest satraps of the Democratic party gather in Washington March 11. This is the date of the meeting of the executive committee of the Democratic national committee. Several of its members have already let it be known they will seize the opportunity to tell the President a few home truths.

The opinion that home-truth-telling is needful arises from the change in the man Truman which the satraps also complain of. Initially, Truman seemed actually to dislike the immense burden that had been laid upon him. There followed a period when he simply and rather admirably resolved to bear the burden as best he could, letting the chips fall where they might. The results of this approach to to his duties were good. These good results were in turn gratifying, and now the satraps complain that the President is suffering from a bad case of Presidentitis.

Nothing is more difficult to penetrate than the obscurity which inevitably surrounds the personality and state of mind of a president. It does seem to be true, however, that the President has met his recent misfortunes, his run of bad luck and his chickens coming home to roost with a curious mixture of complacency and sense of being unjustly persecuted. He is no longer so eager to be advised as in the past. He is not even aware how desperate his political situation is. Indeed he has no one to tell him how bad things are, for the voices of the few really competent men with continuing access to the White House are daily drowned by the smoking-car jollity of Brigadier General Vaughan and the smooth reassurances of the pursy Dr. Steelman.

Their First Move

The first stage of the satraps' reaction to this situation will be to beat the President over the head with the grim facts. It may be expected they will tell him he has almost irretrievably lost the South. (There is a faint hope that the southerners may be wooed back by naming a southern vice president and re-using the 1944 civil rights plank in the 1948 convention platform. But even this hope is too dim to be voiced with real enthusiam.) What is almost worse, the satraps will also tell the President that he is losing the mass vote in the north and that nothing can win this vote back except strong leadership.

The difficulty is that telling the President large numbers of home truths like these, even in the loudest and most menacing possible voice, will neither alter the man nor simplify his problem. At this juncture, in the opinion of the most competent Democratic strategists, there is really nothing much that the President can do to restore himself. The real price of the southerners is the removal of Truman from the head of the ticket. The only real means of regaining northern mass support, in present circumstances, is actually to put through the social and other measures which the President has advocated. And he would have to jail most of the congress to pass these measures.

White House Hope

The strategists close to the White House count on the inevitable worsening of the foreign situation to bring their man back. But the more impartial Democrats are even unable to see hope in this grim remedy. "Truman isn't the kind of man," one of them admitted bitterly the other day, "that people think they've got to keep in office just because there's crisis."

If all this is so, moreover, it is necessary to look forward to still another stage in the reaction of the great Democratic satraps. They made Truman, and he has not used the Presidency in such a way as to prevent them from unmaking him. On a recent trip around the country, one of the President's closest political advisers was shocked to discover how many party leaders wistfully speculated on whether Truman might not be induced to step aside in favor of General Eisenhower. For the present, of course, this is a mirage. But for the future it will certainly have meaning.

It does not mean, of course, that General Eisenhower is any more likely to want to run as a Democrat than as a Republican. Nor does it mean that the President will actually be replaced at the head of his party's ticket in the election. It is simply a sign of very bad further trouble ahead. The southern governors are meeting immediately after the Ed Kellys, Frank McHales, Ed Flynns et al gather in Washington for the satraps' rally. It is almost inevitable that the satraps' best efforts will not disclose a formula short of side-tracking Truman for bringing the south into line again. The real trouble will start at the governors' meeting, when the southern rebellion is quite likely to become formal and official.

Then, if the deterioration continues, at least a few of the northern satraps are quite likely to join in a putsch, sometime in the spring, to make the President request a successor. The betting is still ten-to-one that the Democrats at Philadelphia will nominate Truman. But after the preliminaries, the convention should be a somewhat melancholy gathering.

GENEVA, Switzerland — German prisoners of war from camps in France are constantly slipping over the barely guarded French border here, in hope of being granted asylum in Switzerland, or of being returned to their homes in Germany.

Eighteen escaped German prisoners were arrested in Geneva on a single day recently, and nearly 70 such arrests were made by Geneva police in three weeks.

In most cases the police ignore the prisoners' claims to be "political refugees" and, in accordance with international law, hand them over to the French occupation authorities in Germany."

The Once Over

The Great Juke Box Trial

"A TAVERN patron shot a customer and a bartender after the customer had played 'Bongo, Bongo, Bongo,' or 'Civilization, Take It Away' a dozen times. He fought with the police before being arrested."—News item.

Prosecutor. Prisoner, to the bar!

Prisoner. May I first make one request?

Prosecutor. What is it?

Prisoner. I want everybody in court searched for nickels!

* * *

Prosecutor. There are no juke boxes in this court.

Prisoner. They're apt to be anywhere these days!

Judge. It's a fair request. And if anybody has any slugs let them turn them over, too.

* * *

PHILLIPS

Prosecutor. You are charged with shooting two people because a juke box played the same tune too many times.

Prisoner. I am guilty, but will not accept a medal.

Judge. I shall have to turn this case over to another jurist. I had dinner in one of those juke box places last night and know how it is.

* * *

Prosecutor (as a new judge takes over). What was the tune that drove you to this deed?

Prisoner. Bongo, Bongo, Bongo.

Prosecutor. What did you do when it was played for the tenth time?

Prisoner. I reconnoitered and found a favorable site for deadly aim.

Prosecutor. What did you do next?

Prisoner. I drew a bead on the customer as he was asking the bartender to change a dime. Then I shot him, too.

Prosecutor. Why?

Prisoner. He gave the customer two more nickels!

* * *

Prosecutor. Did you remonstrate first?

Prisoner. When an addict gets going on a hot juke box number it is folly to remonstrate.

Prosecutor. Did you suggest that the customer play some other tune?

Prisoner. No, I was afraid the other one would be "She's Too Fat For Me."

* * *

Prosecutor. Did you empty your gun?

Prisoner. No.

Prosecutor. Why not?

Prisoner. There was always a chance I might meet the composer!

* * *

Prosecutor. It is alleged that you also carried a machine gun? What for?

Prisoner. In case the juke box manufacturer, distributor and inventor dropped in.

* * *

Prosecutor. Why, after shooting two people, did you put up a fight with the police?

Prisoner. One of 'em reached for his hip pocket.

Prosecutor. You were afraid he was going for his gun?

Prisoner. No, I was afraid he was going for a nickel to play "Feudin an' Fightin'."

* * *

Judge. I've heard enough to convince me this man did everything alleged.

Prisoner. Yerroner, I hope you won't make the sentence too stiff.

Judge. Sentence, my eye! Here's a new gun! Drop in my office after court and I'll give you a list of taverns worth attention!

With a bespangled driver with costuming so thick
I knew in a moment 'Twas Ringling's Saint Nick;

Real Estate

By TRUMAN TWILL

Ideal real estate, sometimes known as "a little place in the country"—or in town, as the case may be—is situated in nice surroundings with an extraordinary view, is modern and up-to-date in every detail, has numerous advantages not found in ordinary real estate and reflects the integrity and skill of honest men who once passed that way and built an enduring monument to themselves.

The approaches to it are smooth and broad, the air pure and clean, the neighborhood desirable, the living quarters spacious and comfortable, the conveniences too numerous to mention and the price so right that the whole thing can be had for a song, meaning do-re-mi.

The place must be seen to be appreciated, lived in to be enjoyed and compared with all other existing real estate to comprehend its true value which is infinitely more than can be measured in mere dollars and cents. Also all assessments have been paid, the title is clear as a drop of dew on a rose and there is a fireplace.

The previous tenant loved it like his own children, the neighbors are overflowing with the milk of human-kindness, the upkeep is low, the long-term investment value high, and there are shade trees, fruit trees, luxuriant shrubbery, transportation within beck and call, a brilliant future, plenty of closet space and a number of built-in features.

At the very least, there are infinite possibilities of making something extra lovely out of it by the intelligent investment of money, time and effort, with flowers blooming all around and Sunday motorists slowing down to wonder why are the lucky people who had the sense and foresight to settle down on that particular segment of the good earth and make it seem like a corner of the Garden of Eden.

It is exactly what the fellow who wants it has been looking for because he is fed up with what he has and knows there must be something better if only he can locate the fence where the grass is greener on the other side. He does not expect anything more than he is entitled to have, which is the privilege of living where he wants to be, surrounded by all the things he wants to have there and free from all further worries about real estate—at least until he gets fed up again and is in the mood to look for some other fence where the grass on the other side is greener, the price is right and all modern conveniences are present in abundance.

SHIP CREW MEMBER RESCUED. A crew member of the Motorship Norfolk (background) is towed through the water in a breeches buoy to a Coast Guard lifeboat in a daring rescue off shore of Morehead City, N. COUNCIL

(Continued from Page 1)

the company could ill afford to maintain lines not at least paying for themselves. He cited a 35 cent a mile cost of operation on the line in question and pointed out that reducing operating costs is virtually impossible as his three main cost favctors ,wages equipment and gas and oil cannot be reduced further.

Delagation of Workers

A delegation of approximately 25 members from the garbage and ash department represented by Local 310, United Public Workers Union (CIO), listened to a finance committee report on their demands for a 15 cent an hour pay increase and other pay ncirease and other benefits. After hearing that a raise was out of the question at this time, the delegation left the meeting without discussing their request.

The union, in addition to a 15 cent wage increase, sought paid vacations of seven days for one or two years service and 14 days for three or more years service. Sick benefits based on the same ratio also were asked. While no possibility of granting the pay hike was seen, the committee reported something might be worked out on the other demands. The committee reported that the garbage and trash department was "just getting by" at the present time and funds were not available from present revenues to justify additional pay to the 40 members of that department.

Jack Lautenslager, president of the Junior Chamber of Commerce, asked passage of a licensing ordinance for bicycles. He reported the Jaycees in the interest of community safety would like to see such an ordinance on the books.

He said an ordinance would make for safe operation, in that offenders could be controlled much in the same manner as reckless operators of motor vehicles and that licensing would aid in recovery of stolen bikes. He recommended that under such an ordinance operators of used bicycle sales shops be required to register all sales.

The Jaycees in the interests of safety would donate $400 for installation of a "scotch light", a luminous strip visible at night for each bike registered to get such a safety project underway. License fees, he opined would bring in enough revenue in the future to insure each newly registered vehicle of being given one under operation of the proposed ordinance.

Plan Under Study

Mr. Lautenslager was told that a bicycle ordinance was under study among the contemplated revisions of the city traffic code now underway in council committee.

Legislation enacted included resolutions authorizing installation of a street lamp at a light pole on Johnson street north of the Wilson avenue intersection and paving of Johnson street from a point 450 feet north of Wilson avenue to the corporation line. Work will include laying of approximately 800 feet of macadam pavement and construction of sidewalks on both sides of the street including curb and gutter. The work is being done by and at the expense of the Marion Contracting Co., E. L. Davis president. The firm owns the property on both sides of the street where improvements are to be made.

Ordinances passed included payment of a $23.75 claim to Mrs Hugh Moore 409 Bellefontaine avenue. Her car was struck by a city truck. Also enacted was legislation authorizing employment of consulting airport engineers to revise previously approved plans for the city airport.

Park Cleanup Requested

A request that the city clean up Lincoln park, specifically removal of accumulations of dead leaves and trash, was referred to action by the park board.

The Fairfield Engineering Co. requested by letter council action to increase the present supply of water to the plant. The company request was based on the fact that the firm intended to increase its insurance coverage and could not do so unless increased water supply was provided that section. The company suggested linking the 6 inch main on Barnhart street with the eight inch main on Lincoln avenue to create a loop which would provide increased facilities.

Reporting on a previous request for council action on smoke abatement at the Universal Cooler plant, Councilmember - at - large C. R. Pennisten said that company officials had recognized the problem and were willing to cooperate in working out a solution, if possible. He reported that a representative from the Universal Cooler would be present at the next meeting to discuss the problem with council.

RUSSIA HITS AT U.S. 'SCHEMING'

Says We're Engineering Plan To Divide Europe and Attack Soviet.

By The Associated Press

MOSCOW, March 9 — Russia maintained today that the United States is engineering a western power scheme to divide Europe and increase military strength in Germany for aggression against the Soviet Union.

In a note to the United States, Britain and France, Russia declared the western powers are trying to build up military potential in the Ruhr so as to "turn western Europe into a strategic base for American imperialism in Europe with the purpose of aggression against the U.S.S.R."

The note was made public last night at a news conference. Russian officials said it was delivered Saturday. It did not say what action the government intends to take on its interpretation of events.

Rejects British Reply

The Soviet note rejected a British reply to an earlier Russian protest against a recent three power conference in London on Germany's future. That conference, the Soviet note charged, violated the Potsdam agreement of 1945.

(The conferees agreed Saturday on future international control of the Ruhr and a federalized form of government for western Germany).

In addition, the Russian note contended, the major western powers are trying to liquidate the four-power council of foreign ministers.

Britain and America merged their occupation zones in western Germany so that they would not have to demilitarize that area "nor liquidate their military enterprises in Germany," the Russian note declared.

It further charged the United States wants to split Europe into two camps, and "include schismatic western Germany in the western bloc." To this end, the note declared, the western powers are paralyzing the allied control council in Germany, and want to liquidate the council of foreign ministers "in order to get rid of all constraints which might hinder the conduct of such a policy as the council of foreign ministers could not agree upon."

"American Plan"

Russia said the "American plan" was to put western Germany behind the joint control of the four powers. After that had been done, the note said, the western powers would use Bizonia, the merged occupation zone, and a special group of European states to oppose the remaining European states. This would lead to a division in Europe, the note said "and the formation of two camps of European countries."

Thus the American-British-French conference in London played into the hands of warmongers, said the note.

The council also resolved to help the Scioto-Sandusky conservancy district and the U. S. Engineers in preparing a detailed survey and estimate of requirements on the proposed Hoover dam site near Columbus.

The society met to praise Ohio's stars of stage and screen and to hear talks from some of them.

Dr. Howard V. H. Inches, program chairman, keynoted the meeting when he said:

"From this theater have come leading actors and directors for the stage and motion pictures . . . more famous stars of stage and screen have come from Ohio than any other state."

Inches named George Blackwood, Joe E. Brown, J. C. and Elliott Nugent, Clark Gable, Warner Baxter, Ted Lewis, William Boyd, Bobby Clark, Otto Kruger Dorothy and Lillian Gish, Tyrone Power and "hosts of others."

KAISER LETTER MAKES CHARGE IN STOCK TIFF

By The Associated Press

DETROIT, March 9—A charge that Cyrus S. Eaton, of Otis & Co. Cleveland, attempted to coerce Kaiser-Frazer Corp. into cancelling a contract for the sale of K-F stock was contained in a circular letter distributed today to employes of the corporation.

The letter, signed by Henry J. Kaiser, board chairman of Kaiser-Frazer, outlined plans for expanding Kaiser-Frazer and explained the need of additional capital.

In Cleveland, representatives of Otis & Co. said they had seen the Kaiser letter but had no comment.

With additional capital Kaiser-Frazer planned to step up car production from 1,000 a day to about 1,500 a day. When the issue of 1,500,000 additional shares of K-F common stock was withdrawn from sale the company announced an "economy drive," cutting back production and reducing operations to a one-shift basis at its Willow Run plant.

At about the same time it obtained a $10,000,000 loan from the Bank of America. Under the cutback program output is being reduced to about 750 cars a day and approximately 3,000 employes have been laid off.

Says Farmers Need Extension of Parities

By The Associated Press

NORWALK, O., March 9—Recent drops in grain prices point up the farmer's need for extension of parity guarantees, says State Grange Master Joseph W. Fichter.

Speaking at a Huron county Grange banquet last night, Fichter asserted:

"Farmers, more than any other group, are directly affected by the law of supply and demand, and for this reason they must depend upon legislation for an economic position on a parity with other groups."

The farm price support program is due to expire Dec. 31.

"While the farmer's income is falling off, he discovers he has to pay more for a tractor or a refrigerator," Fichter said in commenting on the steel increase.

HOCKEY LEAGUE HEAD OUSTS TWO PLAYERS

By The Associated Press

LANSING, Mich., March 9—National Hockey league president Clarence S. Campbell today expelled Billy Taylor, New York Ranger hockey player, and suspended Don Gallinger of the Boston Bruins on charges of being associated with gamblers.

Campbell reported the punitive action to Michigan's Governor Kim Sigler.

Campbell had returned to Michigan to announce his decision because Detroit police on Sigler's instructions last week had given the league president information pointing to a link between gamblers and professional hockey players.

The hockey league president expelled Taylor for conduct "prejudicial to and against the welfare of hockey."

He charged that he had sufficient evidence to show that Taylor had "knowingly associated with and communicated with James Tamer, a criminal and known gambler."

A Weak, Run-Down Feeling Is Often A Warning

That The Red-Blood Is Getting Low

If you do not feel like your real self, do not have the urge to be up and doing, why not check-up on your blood strength? Look at the palms of your hands, your fingernails, your lips, the lobes of your ears—are they pale and off color?

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that S.S.S. Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the S.S.S. Tonic formula which contains special and potent activating ingredients.

Also, S.S.S. Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Sharpen your body with rich, red blood. Start on S.S.S. Tonic now. As vigorous blood surges throughout your whole body, greater eagerness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—often look 10 pounds lighter. Millions of bottles sold. Get a bottle from your drug store, now! Take as directed. Directions in each package. Small Family Size (Approx. 6 times the trial size) only $2.25.

EXPLOSION KILLS 100, LEVELS CITY BLOCK

By The Associated Press

SHANGHAI, March 9—A Chinese ammunition dump exploded at Tsingtao today, levelling a city block and causing 250 casualties. An estimated 100 were killed.

U. S. Navy sources here said the explosion occurred just before noon, within half a mile of docks where the USS Estes, flagship of the American Western Pacific fleet, and the Navy hospital ship, Repose, are tied up.

Tsingtao is the Chinese base of the U. S. Navy's Far Western Pacific fleet.

There were no immediate reports of casualties among American personnel at Tsingtao.

The explosion, set off by an undetermined cause, swept an area east of the docks.

Resulting fires left a mass of blackened ruins in a wide sector.

The Repose and all available U. S. Navy medical facilities afloat and ashore immediately gave assistance.

The Repose staff is especially trained for disaster work. It swiftly went about the job of rescuing Chinese from fallen buildings and giving first aid.

No United States buildings were damaged.

Klan Claims Member List Gains in South

By The Associated Press

ATLANTA, March 9—The Ku Klux Klan claims an increase in membership due to the civil rights issue raging in and out of congress and through the South.

The hooded and robed order has stepped up its activities. A new pamphlet says it is ready for a period of "constructive planning and activity."

Spokesmen deny any Klan connection with some activities charged against the group. But they advertised widely in advance a recent parade in Swainsboro, Ga., and another in Wrightsville, Ga., on the eve of a county primary election.

In both instances crosses were burned on the courthouse lawns after from 200 to 300 hooded and robed Klansmen paraded around the square. Leaders said the KKK had gathered to rededicate itself to maintenance of southern traditions, including segregation of races.

By The Associated Press

AKRON, O., March 9—Burr McCloskey of Akron, general secretary of the United Labor party, today announced formation of the "victory for Wallace committee for Ohio." Cong. Smith Says Americans Must Guard Liberty Carefully

Lest "we lose our liberty in this country" it is high time that Democrats and Republicans get together. This is the view of Congressman Frederick C. Smith of Marion, one of the speakers at the second annual Lincoln Day dinner sponsored by the Republican Women's clubs of Crawford county. Attending were a number of Ohio G. O. P. leaders, inluding Gov. and Mrs. Thomas J. Herbert. The dinner was held Saturday night at the North Robinson High school and was attended by 400 persons.

Reiterating his stand against the Marshall plan, Congressman Smith said: "I'm not ready to give my country away." "Muddled thinking" in Washington came in for a scoring, as did communism and socialism, which Congressmen Smith said the Marshall plan fostered. Domestic and international conditions he characterized as "grave" and urged the support of Senator Robert A. Taft's candidacy for the Republican presidential nomination. He professed to see a bright outlook for the Republicans, but urged them to win on their own merits rather than through any "default" such as the Wallace third party movement might be expected to offer.

Governor Backs Taft

Likewise Governor Herbert in his address endorsed Senator Taft for the presidency. He defended his action in not sending Ohio guardsmen to Galion in the North Electric Co. labor controversy last fall. Relating accomplishments of his office in tax reductions, the governor pointed out that actual tax reductions had been effected by abandoning the state admission tax, and asserted that it would be five years before a levy would be required on real estate to retire bonds now being sold, to finance the Ohio veterans' bonus.

The four-course dinner was prepared and served by North Robinson Grange women. Presiding at the speakers' table and in charge of the whole event was Mrs. W. W. Wheatcraft of Galion, member of the Republican state central committee. She urged women to take more active interest in political, country and state events.

Mrs. Carl Cover, president, the Galion Women's Republican club introduced Congressmen Smith. The nationally famous Columbus Republican Glee club sang. Music also was furnished by the North Robinson school brass quintet.

Others Attending

Among others present were attorney General and Mrs. Hugh Jenkins, Don Ebright, state treasurer, and Mrs. Ebright, Edward Hummel, seretary of state; State Registrar and Mrs. Edward T. Fogo, Roger Tracy, candidate for state auditor, Edwin A. Todd, assistant state treasurer, and Mrs. Todd, Terry Drake, Crawford county representative, and Mr. and Mrs. David H. Sears, the former a state central committeeman.

Landlord Fined For Failing To Obey Order

By The Associated Press

CLEVELAND, March 9—Federal Judge Robert N. Wilkin fined Harold Harold B. Bryant $100 and costs and imposed a 60-day jail sentence for failure to obey an order to make restitution of rent overcharges to a tenant.

The sentence was suspended for 10 months, in which Bryant is directed to pay Thedeus Green, his former tenant, $275 specified in a federal order last June.

Attorneys for the office of the Federal Housing Expediter said it was his first case of its kind in rent ceiling enforcement in this area.

PLAN ATTENDANCE FOR SUFFRAGE MEET

Marion Co. Women To Take Part in Centenary Event.

Documents revealing the early struggle for women's suffrage will be presented to the Martha Kinney Cooper Ohioana Library association at a spring luncheon to be held at the Seneca hotel in Columbus, Saturday, March 20. The occasion also will commemorate the one-hundredth anniversary of the Woman's Suffrage movement. Among those attending from Marion will be Miss Pansy Rauhauser of Linden place, Marion county chairman of the association.

The documents consist of an extensive collection of letters by the great of the land, newspaper clippings, diaries, photographs and pamphlets going back more than a century and covering practically the whole story of woman's struggle for the vote.

The collection was assembled by the first president of the Ohio Woman Suffrage association, the late Frances Jennings Casement, and tell the story of stirring events in Ohio and the nation and the dramatic biography of Mrs. Casement herself.

The presentation will be made by Mrs. Harold Furlong of Painesville, granddaughter of Mrs. Casement, who with her family lives in part of the vast Casement homestead. She found the rich accumulation where her grandmother had left them years before, in her big, curly maple and cherry desk.

The acceptance speech will be made by Florence E. Allen of Cleveland, judge of the Sixth district U. S. court of appeals and an honorary member of the library board. She recently completed cataloguing the Casement papers. Taking part in the program will be Dr. Howard Bevis, president of Ohio State university. Mrs. Bevis, library president, is arranging for the luncheon.

Present will be J. H. Donahey, Plain Dealer cartoonist whose sketches always boosted the cause of equal franchise, and Vaughn Wyman of Painesville, the library's Lake county chairman who pleaded for the suffrage documents remaining within Ohio.

The Casement documents though coveted by the Library of Congress in Washington, have been given to the Ohio library by Mrs. Furlong and her father, Dan Casement a resident of Manhattan, Kas.

Ohio Turkey Outlook Not Good This Year

By International News Service

COLUMBUS, March 9—It's still a long way off. But . . .

If you want a Thanksgiving turkey, you'd better get your order in early.

D D Moyer, specialist in poultry husbandry at Ohio State university, warned today that the traditional bird is on the farmer's black list this year On Jan 1 there were 101,000 turkeys on Ohio farms, or less than one-half the 224,000 on hand Jan 1, 1947, or the 249,000 on Jan. 1, 1946

Moyer explained that the turkey farmer "has to place his bets in April for his product to sell at Thanksgiving and Christmas" The high price of feed today make the turkey business too big a gamble for most players

GALION COUNCIL ACTS TO DEFEAT PETITION

Special to The Star

GALION, March 9—City officials report today that they have had a number of telephone calls from signers of the referendum petition circulated last week by John P Drouth to block the city ordinance providing $7,200 yearly salary of the new service-safety director

City officials began a campaign to have signers remove their names from the petition, Monday A "letter" written by Otto Pfeiffer council president, explains that the referendum petition calls upon the voters of Galion to approve or disapprove the salary of the service-safety director, and is now on file at the City auditor's office where the law requires it to remain for 10 days for inspection Anyone so desiring to withdraw their name, may do so during this 10-day period If, after the deadline, there are still the legal number of names remaining, the petition will then be turned over to the board of elections to be placed on the ballot and voted upon at the next regular election which will be November

Mr Pfeifers letter says "When a patient is very sick, and you call in a specialist, you do not quibble about the cost, realizing that if the patient recovers it was worth whatever the cost So it is with the financial affairs of the city which are sick very sick especially our Light Plant our city officials agreed unanimously that it required the services of a specialist a man experienced in the management of the municipally owned utilities In John F Porter we believe that we have just such a man, and firmly believe before the year is up, we will find he is under-paid, rather than over-paid"

Besides circulating the referendum petition, Drouth previously filed a petition in Crawford county common pleas court, asking an injunction against city officials in paying the salary of Mr Porter, stating that city council violated its discretionary powers The case will be given a hearing March 29

Adapts Jet Engines To Rail Locomotives

By The Associated Press

PITTSBURGH, March 9 — A new type of railroad locomotive incorporating knowledge gained in the development of jet propulsion aircraft engines was reported yesterday by the Westinghouse Electric Corp. in its annual report to stockholders.

The new locomotive, Westinghouse said, will be powered with a gas turbine electric drive.

"The axial-flow compressor, heart of our jet engines," the firm said, "also is being adapted to non-aircraft uses. A 2,000 horsepower gas-turbine, suitable for locomotive or industrial use, has demonstrated the soundness of its engineering design. . . . The company is proceeding to build two similar gas turbines for use in a locomotive designed to compete with diesels in both traction and industrial service."

"Rikmobile" Invented To Replace Rickshaw

By The Associated Press

SAN FRANCISCO, March 9—A three-wheeled "rikmobile" soon may be chasing the ancient man-powered rickshaw from the streets of China.

The gasoline propelled vehicle was designed here by three Chinese-American engineers who formed the China Engineering Products corporation. The first car will be shipped to China within a week.

Heading the group is Sherman Lee, aeronautical graduate of Purdue, who worked on the vehicle for more than two years. He was assisted by Herbert Wong, aeronautical graduate of Rensselaer Polytechnic institute, and Albert Wong, graduate of the University of Washington.

Their hope is that the rikmobile gradually will displace the rickshaw, at least in the larger cities.

Battle Royal Set On Mat Card Thursday

A "battle royal" will be the main feature at the Armory Thursday night for all the fans who follow the trail of the groanin' gladiators.

Starting the show, Farmer Jones, Al Alexander, Len Hughes, Bill Murray and Jack Kelley of Bellville, Ill., who will appear here for the first time this winter, will crawl into the ring. The point, thereafter, will be to throw each other out. The last grappler remaining in the ring will be declared the winner. The second and third eliminated will follow with a semi-final match of 45 minutes duration, and the last two out will meet in a two-hour main event.

Hostilities will begin at 8 p. m. with a 10 minute preliminary match between two paperweights going under the titles of Mickey Mouse and Donald Duck.

The U. S. Merchant Marine in 1946 contained almost two-thirds of all the world's shipping tonnage.

people over which customers belongs to whom.

"The six most annoying habits to avoid if you wish to be a successful salesperson are these: annoying mannerisms, familiarity, excuses, jealousy, rudeness, and a tendency to complain," said Mrs. Dwyer in concluding.

Motion Picture Shown

Prior to the address of the speaker the motion picture "Through the Looking Glass," a Montgomery Ward production, was shown. It stressed the necessity of good appearance, correct speech, and a cooperative attitude in a salesperson.

Following the main address, Charles E. Jennings, chairman of the Retail Board of Managers of the Marion Chamber of Commerce, sponsors of the institute, expressed thanks on behalf of the retail board for the interest in the course shown by the retailers through their faithful attendance at the six sessions. He advised them the certificates of achievement, which will be awarded those attending five or more sessions of the institute, will be delivered to them as soon as they have been properly inscribed.

The course began on Feb. 2 and has presented a total of ten speakers selected from the retail field. Approximatly 500 persons enrolled for the course and attendance was heavy at all sessions.

The course has been conducted under the personal direction of Miss Murl E. Frye, coordinator of distributive education at Harding High school and has been sponsored by the Retail Board of Managers of the Marion Chamber of Commerce in cooperation with the Marion board of education and the state department of education.

announcement was the result of "rumors that some of the big city bosses want to dump the President," McGrath replied:

"I'm glad as national chairman that this statement puts at rest all these rumors."

But there was nothing in the President's declaration to give the southerners any comfort on the civil rights issue.

As he emerged from a 90-minute conference in Mr. Truman's office with Gael Sullivan, the Democratic committee's executive director, McGrath said on this point:

"The President's position is unchanged since he delivered his message to congress and I might say that in my view, his position, as expressed in the message, is as old as the Constitution itself and as new as the 1944 Democratic platform."

McGrath already has offered to return to the 1944 civil rights platform plank. It merely pledged the party in a general way to work for equal right for all.

But southerners have said that isn't enough. Their contention is that, no matter what the party says, Mr. Truman will be running on his own civil right platform.

Vice President Overlooked

To a question whether a vice presidential candidate had been discussed, McGrath laughingly replied: "My gosh, we forgot that."

There has been speculation the Democrats might choose a running mate from the South in an effort to placate the civil rights rebels.

There also has been some Democratic talk of MacArthur as a possible substitute on the party ticket for Mr. Truman. But the general's recent praise for the Republican party leaves him little room to cross to the other side of the political fence.

The Tokyo announcement plainly surprised most Republicans. They had looked for the Allied commander to remain silent for some time to come.

But the move served blunt notice on both Dewey and Stassen—the two contenders in today's New Hampshire balloting—that a victory for MacArthur in Wisconsin's three-way race next month would be followed by widespread efforts in his behalf elsewhere.

Most politicians looked for MacArthur's entry in the race to affect Taft most directly. Many of Taft's backers have had a good word to say for the general.

For instance, Senator Hawkes (R-NJ) in commenting on MacArthur's announcement said the general "would make a great president."

"I am on record, of course," Hawkes added, "as a supporter of Senator Taft. Taft also has the essential qualities that would make him a great president."

Backers Jubilant

MacArthur's own backers were overjoyed. Warren Wright, national head of the MacArthur-for-America club, said: "the nation has been praying for the general's acceptance and now our prayers have been answered."

In their drive to win the nomination for MacArthur, however, his friends will have to counter the sentiments expressed by Gen. Dwight D. Eisenhower when the former Army chief of staff—and as such MacArthur's boss—knocked his own name out of the race.

In that statement on Jan. 23, Eisenhower said "nothing in the international or domestic situation especially qualifies for the most important office in the world a man whose adult years have been spent in the country's military forces."

Two weeks later Eisenhower took occasion to say he "resented" implications that he had MacArthur in mind.

Replying to newsmen's questions at a farewell luncheon, the retiring chief of staff said MacArthur would have to be guided by his own conscience.

"I am not anybody's keeper," Eisenhower said. "I would do nothing knowingly to damage him."

Write-in Campaign For MacArthur Begun in Ohio

By The Associated Press

CLEVELAND, March 9 — A write-in campaign for Gen. Douglas MacArthur in the Ohio May 4 primaries was announced today.

Melvin T. Hott, attorney and spokesman for a Cleveland-MacArthur-for-President club, said a drive would be started throughout the state to have Republican voters write in the general's name on the primary ballots.

Since MacArthur has no slate of delegates for the ballots, the campaign mainly would serve as a test of his strength in Ohio.

TAFT NOT SURPRISED

By The Associated Press

COLUMBUS, O., March 9—U. S. Senator Robert A. Taft (R-Ohio) says he wasn't surprised at the announcement President Truman will run for president if nominated by the Democrats.

"It's hardly a surprise," Taft, candidate for the Republican presidential nomination, said last night before returning to Washington after conferring here with Ohio supporters.

MacArthur's Greatest Political Asset Waning

By The United Press

WASHINGTON, March 9—Republican regulars and rebellious southern Democrats maneuvered today to put the freeze on the presidential candidacies of Gen. Douglas MacArthur and President Truman.

A few Democrats uttered half-hopes that Gen. MacArthur would turn out to be a Democrat and maybe run for them if they could block Mr. Truman. But the general is a Republican.

GOP party leaders shied away from challenging Gen. MacArthur. But most of them are convinced now they have the November election in the bag. Many are not as eager as some months ago to top their presidential ticket with a lot of military glamour.

There is some rank and file MacArthur support and he has a national following as a military hero but the greatest political asset he and General Ike possessed is fast disappearing. That was the fear among many Republicans that they could have a hard time defeating Mr. Truman this year. But Gen. MacArthur has some powerful newspaper support, including Col. Robert R. McCormick of the Chicago Tribune and William Randolph Hearst.

Dewey-Stassen Duel Opens in New Hampshire

By The United Press

MANCHESTER, N. H., March 9—New Hampshire opened the season on presidential candidates today with a preferential primary hailed as a test of strength between Gov. Thomas E. Dewey of New York and former Gov. Harold E. Stassen.

At stake were the eight delegates to the Republican national convention.

A record number of voters—perhaps as many as 60,000—was expected to be lured to the polls by the combination of the widely publicized Dewey-Stassen duel. The weather was cloudy and cold.

Hunt Company Office Is Looted of $40

The office of the Millard Hunt Co., coal and builders supply dealer, located at 152 North Prospect street, was broken into last night and $40 was taken from the cash drawer, Paul Hunt reported today. Police said they were called to the coal office at 9:21 p. m. last night when Mr. Hunt returned to the office and discovered that a rear window of the building had been forced and the contents of the cash drawer were strewn around the floor. The burglary was estimated to have taken place between 8:45, when the last worker left the office, and 9:20 p. m. when Mr. Hunt returned. He immediately called the police, but no trace of the burglars was found.

DEADLINE ON BIDS

Bids on more than 800 acres of farm land in the Scioto Ordnance Plant tract recently acquired by the state welfare department will be accepted until 12 o'clock noon tomorrow, March 10. Due to a typographical error in a news item appearing in The Star recently the date was given as March 12.

Golden Glovers in Final Week of Training for Tourney Which Starts Next Monday

112 Fistic Aspirants Now Tossing Practice Punches for Annual Affair

By BILL MURPHY

The final week of skipping rope, punching the heavy and light bags, sparring and exercising is now here for all the young fistic aspirants of the North Central district A. A. U. Golden Gloves tournament, which will begin next Monday.

Training began January 14, and it's been a long time for most of the boxing hopefuls, but at last they can see what lies ahead—first the matches here in the Armory then, for those who win in each weight, a trip to Columbus to fight in the state matches, and finally, for those who have the punch and staying power, the National finals in Boston.

112 Entered

This year's practitioneers of the ring art number over one hundred, in fact, 112 are now entered, compared with 91 at the same time last year, and a great many others are expected to be on hand next week to boost the total to well over the 120 point.

Many of the boys from surrounding towns, who were unable to train at the Y. M. C. A., have been just as assiduous in training at home and will be well prepared to throw haymakers, hooks and jabs on the opening night.

Contenders will fight in eight weight divisions, including paperweight, 100 pounds and under; flyweight, 112 and under, featherweight, 126 and under; lightweight, 135 and under; welterweight, 147 and under; middleweight, 160 and under; light heavyweight, 175 and under and heavyweight, 176 and over.

To Weigh in Monday

Boys entered in the matches are to report to the Armory at 6 p. m. Monday night for physical examinations and to be weighed in. They should remember to bring their shoes, trunks, robe and towel.

Doctor A. J. Wagner, Jimmy Williams, local promoter, and Jack Lewis, trainer, will referee the matches. Leather will begin to fly at 8 p. m. Tickets for the bouts will go on sale Wednesday at Markert and Lewis and will cost $1.50.

BIRD-M'GINNIS STAYS ON TOP VET LEAGUE

Three games were played last night in the Vet league at the Armory with final scores showing Company C taking a 24-14 verdict from Navy Club, Bird-McGinnis downing AMVETS, 40-27, and V.F.W. outlasting G. I. Post 44-35.

In the first fray, Company C divided the scoring almost equally among seven cagers with Hensel getting six for top honors. Reams made seven in pacing the losers.

Bird-McGinnis had little trouble in downing the AMVETS, as they jumped to a 6-4 first period lead and added 14 in the second while limiting the AMVETS to four in each quarter, to take the half-time rest, 20-8. In the last half, the AMVETS fared better on their shots, hitting for 10 and nine points in the third and fourth, but were unable to overcome the first half deficit, as McGinnis retained their first place standing with a record of 4-0. Ralston led the winners with 12 points, while McKinney hit best for the losers, scoring eight points.

G. I. Post and V. F. W. played the closest game, with Humphreys scoring 13 for the losers, and Busler getting 14 for the winners. The teams played on equal terms in the first half, with each scoring 10 and 11 points, but V. F. W. drove ahead in the third when they racked 12-6, and added three more, 11-8, in the final quarter.

Vet league games scheduled for next Monday will be postponed until the following week because of the Golden Gloves boxing matches to be run Monday night at the Armory.

SPRING training for the Marion Cubs will start here about April 5, Jack Sheehan, farm director of the parent Chicago Cubs, announced today. About 30 men will report to Manager Lewis (Zeke) Bekesa after he gets back from the Cubs' pre-season training camp for minor leaguers which opens in St. Augustine, Fla., March 15 . . . The local Cubs had had an offer to train in the south, but turned it down. Since at most only a handful of men in training at the outset are expected to remain with the club once the season starts, the local baseball club felt the expense of a foreign camp was too much for what it produced.

OF THE CUBS 18 farm teams, six will start training in the first week of April . . . The top club, Los Angeles, has already started, and Nashville, of the AA Southern Association, begins today . . . Janesville, Wis., of the class D Wisconsin State league, starts the latest, April 15 . . . The rest head for the camps between now and the end of the month.

THE CHICAGO CUBS are in great hopes that their farm system will start paying off this year . . . Their reorganization of the farm system began in 1941 when Jack Sheehan was brought in to run their six farms, but the war halted any expansion . . . In 1945, the Cubs had seven farms, but the number jumped to 20 by last year, 12 of them owned outright . . . They're standing pat on the group they've now assembled and are preparing to harvest the stars this season.

ONE OF THE latest improvements the Cubs instigated to increase their yield of stars was the assignment of pitcher Claude Passeau as a roving coach . . . Passeau, who ended his playing career last year winning two and losing six for the Cubs, will tour the farms with pitcher Ray Prim to instruct the young hurlers . . . Passeau one of the greatest Cub pitchers was out the first half of the season last year recovering from a back injury. He had two disks removed from the bottom of his spine in the spring . . . His best year for the Cubs was in 1945 when he won 17 and lost none, leading the Cubs to the National league pennant . . . His greatest game was the one-hitter he threw against the Tigers in the 1945 World Series which he won, 3-0, facing but 28 batters.

PASSEAU

THE CUBS HAVE two other roving coaches — Ray Hayworth, former Detroit catcher who managed at Macon, Ga., last year, and Clyde McDowell, veteran minor league manager who piloted Fayetteville, N. C. Cubs in 1947.

AMONG THE diamond talent the parent Cubs expect to harvest this year is Don Carlsen, who started his baseball career with the Marion Cubs in 1944 . . . When Don was here, he was a shortstop, and played a very creditable game, batting 296 . . . He went into the army after his year here, but when he got out last year he started way up in the Cubs' Los Angeles club. There, he was converted to a pitcher and the results were astounding . . . The first game he pitched for the Angels, he beat Seattle, 3-2, in 15 innings. Later, he was sent to Tulsa where he could pitch more often . . . Don holds the all-time Tulsa record of pitching 29 consecutive scoreless innings, having turned in that brilliant string last summer.

Assistant Coaches Named at Reserve

By The Associated Press

CLEVELAND, March 9—Lou Zontini and Dick Luther have been signed as assistant football coaches at Western Reserve university. Zontini is a former Notre Dame and professional grid star. He played with the Chicago Cardinals and the Cleveland (now Los Angeles) Rams of the National Football league and the Buffalo Bills of the All America conference.

Luther returns to the line position he held two and a half seasons before assuming the head coaching job for the last four games in 1947, after the resignation of Tom Davies.

Mike Scarry is head coach at Reserve.

Harding Track Training Heralds Coming of Spring

Spring is just around the corner. Last night marked the opening of track training for 55 candidates at Harding High school.

Among those reporting were 11 lettermen, including Dick Gherman, who runs the 100-yard dash, the 220 and 440; Clarence Smith, 100 and 220, Gene Peadon, the dash and broad jump, Dick Stanley, Robert Dickason and Dick Lingrell, the 880 and mile, Fred Carter and Jim Bain, the high jump, John Moodie, pole vault, Robert Ralston, discus and shot putter, and Fred Lacey, 440.

Squad Divided

As many of the boys have not yet found the event which he can do best, the squad was divided into three groups, the beginners, boys trying all events, the intermediaries, who are slightly more proficient in one event, and the seniors, who are trying to better themselves in the event they are qualified for.

Approximately 15 other boys with track ambitions are expected to raise the total on the track team to 70 when the wrestling and tumbling programs have been completed for the season.

Bob Ralston, last year's shot putter, is showing promise, having increased his distance four feet over his best mark last year.

Run 14 Events

All fourteen events will be covered by the Prexies, including the pole vault, high and low hurdles, shot put, broad jump, high jump, the dashes, relays, the mile, the discuss and all variations of sprints, hurdles and relays.

Although the schedule is not completed, Coach Somerlot said he hoped to get the first meet underway by the last of March or the first of April. An intramural track meet will also be held around the last of March.

U. S. Trotting Association Plans To Move Headquarters To Columbus

By The Associated Press

NEW YORK, March 9—The United States Trotting Association announced today its headquarters would be moved from Hartford, Conn., to Columbus, O.

The U.S.T.A. is the governing body of all harness racing in the United States and Canada, and has had main offices in Hartford since it was organized in 1939.

"Columbus sportsmen and city officials, headed by Mayor James Rhodes, have been negotiating for transfer of U.S.T.A. headquarters to that city for several years," the announcement said. A Columbus delegation was here when the action was taken at the Association's annual meeting.

The announcement said the move would be made late this summer, probably in August, and that a building would be purchased for the new headquarters.

Henry Knauf of Ladd, Ill., and all other officers were re-elected for another year. This will be Knauf's third term. G. W. Rittenour, of Piketon, O., was elected board chairman.

1 MORE OUTFIELDER SOUGHT BY INDIANS

By The Associated Press

TUCSON, Ariz., March 9—The Cleveland Indians may keep only two catchers this year instead of the usual three to make room for one more outfielder, Manager Lou Boudreau said today.

Eight fly chasers are cavorting at the Tribe's training camp. All have displayed talent of some sort, thus making Boudreau's final selection a difficult one.

In event only two catchers are carried, the number two spot behind Jim Hegan may go to Joe Tipton, who won the Eastern league batting title with a .375 mark at Wilkes-Barre last year.

The 25-year-old Navy veteran is beginning only his third year behind the plate, but Coach Muddy Ruel, one of the great backstops of all time, says he has shown remarkable progress.

Tipton gives most of the credit to Ruel.

"I learned more from Ruel in 30 minutes yesterday than I learned in two years in the minor leagues," the powerfully built Georgian said.

Hegan, Pat Seerey and Walt Judnich will remain behind for batting instructions from Hank Greenberg when the Indians leave here tomorrow night for a 19-game exhibition tour of California. Greenberg's status as a player, coach or both is still uncertain.

Richwood Legion Takes Waldo, 41-38

Richwood's Legion team, paced by Ross and Milligan with 11 points each, won a 41-38 verdict from Waldo Post No. 40 Saturday in the Legion tournament held at Newark. Richwood took a 14-11 first quarter lead, increased it by four points, 21-14, at the half, lost four points, 11-15, in the third stanza, and stayed even, nine all in the final to take the win by a three point margin. Training Camp Notes

By The United Press

HOLLYWOOD, Fla., March 9—Six homers were hit yesterday as the Pittsburgh Pirates defeated the Hollywood Stars 7 to 4 in an exhibition game. Wally Westlake and Ed Stevens were the only Pirates to hit for the circuit. The other homers were hit by the Stars Tod Davis (two), Fred Vaughn, and Andy Skurski.

CIUDAD TRUJILLO, D. R., March 9—Al Gionfriddo, the Brooklyn Dodgers' pint-sized outfielder and World Series hero, was recovering today from being hit on the head by a pitched ball during yesterday's workout.

Ed Stanky, who was traded to the Boston Braves, was reported progressing in his fight against pneumonia and will leave for the Braves' camp at Bradenton, Fla., on Saturday.

TAMPA, Fla., March 9—Everett Lively and Ed Erault were slated to hurl for the Cincinnati Reds today in an exhibition game against the Philadelphia Phillies.

The Reds were rained out of a game against the Detroit Tigers yesterday for the second day in a row.

SPORTS ROUNDUP

by Hugh S. Fullerton, Jr.

By The Associated Press

TAMPA, Fla., March 9—Johnny Neun, the Cincinnati Reds' pilot, thinks that Pittsburgh will be an improved ball club this year. And in the next breath he adds: "I may be the only one who thinks so." Some other members of the Reds official family believe Dixie Walker won't be as effective in Pittsburgh as he was in Ebbets field, where the fans were all on his side. Word from Clearwater is that Jim Tabor is hollering for his unconditional release from the Phillies so he can join a semi-pro club . . And on the first bounce from Hollywood comes the word that Jimmy Dykes has been told he'll have to produce in the Pacific Coast league this season or take himself and his big cigar elsewhere.

ONE THING the Reds miss since the departure of Bill McKechnie is Bill's polished way of insulting umpires, something Johnny Neun hasn't yet been able to match. A few years ago, for instance, four umpires turned up for one game. All went well until there was a decision at third which Bill didn't like. McKechnie merely wandered down to the coaching box, studiously ignored the arbiter, and remarked to the opposing third-baseman . . . "The tipoff on you guys is that you have to have four umpires to get a decision."

VET TEAM TO MEET GLOBETRAVELLERS

An all star team of the City Vet league will meet the all colored Columbus Globetravellers at the Armory Sunday afternoon at 2.30 p. m. in the second half of a twin bill. Opponents in the 1.30 game have not been picked.

The Globetravellers, winner of 61 of their last 73 games, feature a player with a wooden leg—Billy Lea, the "Wooden Leg Wonder," and a basketball clown in B. Lam Harrison. Other Travellers are "Great" Gaines, Eugene Spiller, Max Ginn, J. "Lujack" Harris, "Dead Eye Dave" Bush, and Bernie Gilbert.

For the Vet All Stars it will be: Glen Brunson, Navy Club, Gilbert, AMVETS, Reams and Coulter of the V.F.W., Humphries, G.I. Post, Don and Richard Williams and De Bolt of the Bird-McGinnis team and Bigford and Fliesher of Company C, plus several others to be announced later. William Wiley will coach the team.

Admission to the game will be 60 cents for adults and 30 cents for students, with the receipts to benefit the Marion City Vet's basketball league.

Another team, the Vet leaguers will also enter the Y.M.C.A. Gold Medal tournament to be staged at the Y.M.C.A. starting this weekend. This team will be composed of most of the Vet All Stars with some changes.

Court Tosses Racing's Tote Rule Back To Commission

By The Associated Press

COLUMBUS, O., March 9—The Ohio racing commission's rule that the state's mile tracks must install totalizators—tossed back to the board's lap by Franklin county common pleas court—was given up in the air today.

A four-hour session between board members and track operators yesterday failed to settle the problem, but the commission hopes to have a decision ready by March 16 when another confab is scheduled.

Beulah Park earlier had refused to install the machines, and the commission had refused spring dates to that track.

Goes to Court

Beulah countered by going to court, contending the rule had not been passed in the legal manner. The board appealed, but the court sent the whole thing back to the commission with the admonition it should use regular procedure in setting up such a regulation.

Henry Green of Cleveland, the No. 1 witness for Beulah, said totes were too expensive (rental $350 per day) for a track with Beulah's "handle" and he disputed such installations would instill public confidence.

Reed Hess, however, said the totes would be used again at his River Downs track, and would also be installed at the half-mile Cranwood track, although that oval does not come under the regulation, "because the public seems to want 'em, and we've learned to give the public what it wants."

Totes Prevent Fraud

Commissioner Garrett Claypool of Chillicothe said he thought the totes would prevent fraud, or any suspicion of fraud, since they print and register each ticket as it is sold. Hess backed Green to the extent of saying he didn't think any bettor would profit by five cents should totes be installed.

Beulah requested three new sets of dates for this year, but the commission delayed action until the tote question is settled. The board did favor a new rule to bar anyone under 16 from race tracks, and permit field and entry horses to be grouped in daily double and quinella betting.

CHICAGO, March 9—Nearby deliveries of grain futures were sharply lower at the opening of the board of trade today. Wheat was off as much as 6¾ cents, corn was 7⅞ lower, and oats were down three cents. Brokers said trading reflected disappointment because of light government purchase of flour.

At the start wheat was unchanged to 6¾ cents lower than yesterday's close, May $2.32-2.29½, corn was two to 7⅛ cents lower, May $2.10-2.08½, and oats were ½ to three cents lower, May $1.07½-1.08¾. Soybeans declined the permissible daily limit of eight cents, May $3.40.

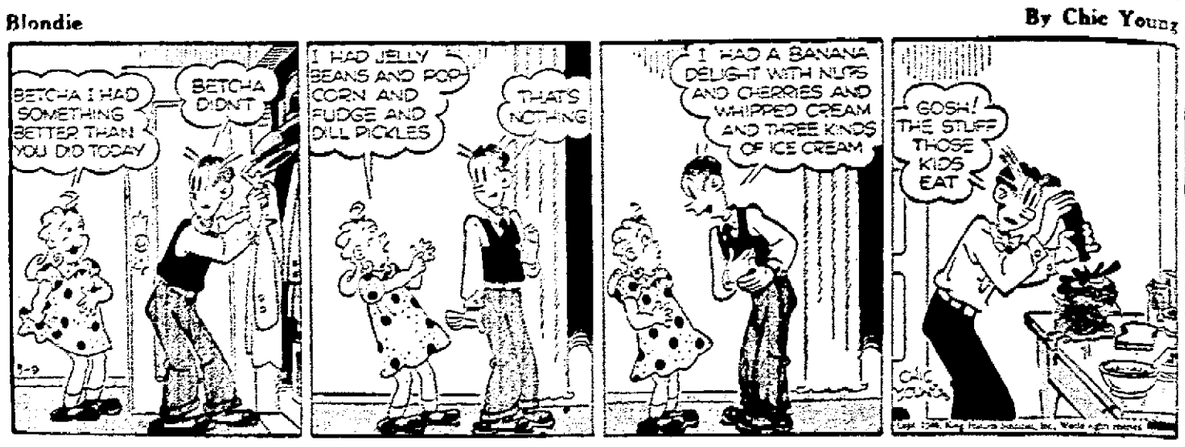
Steve Canyon — By Milton Caniff

I—I SEE THE THEATRICAL MAKEUP—AND I HEAR YOU USE AN ACCENT, BUT I CAN'T BELIEVE YOU WERE THE CHIEF IZM WHO WAS SO NICE TO ME...
THE MOST CONVENIENT WAY TO KNOW WHAT YOU YANKEES WERE DOING...I TOOK THE REAL IZM'S PLACE IN EUROPE DURING HIS STUDENT DAYS!
BUT THE MOB SHOT THE CHIEF—JUST A WHILE AGO ..!
THAT WAS STAGED TO CONFUSE YOU! THEY WILL BE TOLD YOU KILLED CHIEF IZM BECAUSE HE THREATENED TO EXPOSE YOU AS AN INCOMPETENT DRINKARD!
I SUPPOSE THAT'S TO INCITE THEM TO KILL FIREBALL AND ME...
...ESPECIALLY AFTER I GIVE YOU MORE OF THE INTOXICATION DRUG AND HAVE YOU TAKE OUT THE TRIBAL LEADER'S SON'S APPENDIX...

Blondie — By Chic Young



BETCHA I HAD SOMETHING BETTER THAN YOU DID TODAY
BETCHA DIDN'T

THAT'S NOTHING
I HAD A BANANA DELIGHT WITH NUTS AND CHERRIES AND WHIPPED CREAM AND THREE KINDS OF ICE CREAM
GOSH! THE STUFF THOSE KIDS EAT

TODAY'S BIRTHDAY

By AP Newsfeatures

ERNEST BEVIN, born March 9, 1881, has been called "the first British statesman to have been born a working man and remained one." His first job as a farm hand netted 10 cents a week. He quit an $8-a-week job to become a union organizer. He was head of the giant Transport and General Workers Union when called to the Churchill war cabinet. Attlee made him foreign minister. Big, burly, gruff, intensely anti-Communist, he has a facility for making friends—and enemies.

One Man's Opinion

By WALTER KIERNAN

A new process to preserve flowers for 20 years is announced . . . That means that orchid from Winchell will now come with a fixed guarantee.

• • •

And the woman who complains that her husband never brings her flowers will be refuted by her own bridal bouquet.

• • •

I don't know what it will do to the "Flowers by telegraph business" when you can send 'em by freight and they'll get there just as fresh.

• • •

But it means one more complication in a broken engagement . . . The fellow who used to be satisfied just to get the ring and the wrist watch back now will demand the roses.

• • •

Now if they'll just spray a little of that stuff on the grass we can save our muscles for resting this spring.
